DIRECTOR OF CENTRAL INTELLIGENCE
Science and Technology Advisory Panel

02 NOV 1981

MEMORANDUM FOR: Deputy Director of Central Intelligence

FROM:

Chairman, Science and Technology
Advisory Panel (STAP)

STAT

SUBJECT: Discussion Topics

1. At our meeting scheduled for Tuesday, 24 November from 1100-1130, I would like to suggest the following topics of discussion:

a. STAP's Secure Communication paper. A copy has been been provided to you and I would be interested in your reaction to it.

b. STAP minutes. I would also be interested in your reaction to the minutes.

c. STAP projects. Is STAP working on the kinds of topics that you find useful? Can the mix of topics be improved? In essence, what should the Panel be doing that it is not?

d. Representation on the STAP Planning Group. The STAP Planning Group now consists of myself, the Chairmen of STIC and WSSIC, and a representative from the Intelligence Community Staff. I would be interested in your feelings about your participation on the Planning Group, either personally or through a representative.

2. Any other topics that are of concern to you would, of course, be welcome. If you have any questions, you can contact me directly on or call in the Secretariat on extension
